RE: **ET Docket No. 07-27**
RM-11359

COMMENT in the matter of Los Angeles Sheriff's Department's Request for Waiver of Section 15.231 of the FCC's Rules with Regard to Certain Garage Door Opener Transmissions for Law Enforcement Purposes

Dear Commissioner:

Wayne-Dalton Corp. is a leading provider of garage doors, openers, and home automation products. Wayne-Dalton is strongly opposed to the Los Angeles Sherriff's Departments Request for Waiver of Section 15.231 of the FCC's Rules with Regard to Certain Garage Door Opener Transmissions for Law Enforcement Purposes.

We do not believe the proposed development is in the public interest. Our industry has dedicated a tremendous amount of energy and resources to insure that the over 25 million garage door openers that are installed nationwide are provided with a reasonable level of security for homeowners. There is no way to ensure that the proposed technology will not fall into the wrong hands or otherwise become commercialized thus potentially jeopardizing the safety and security of millions of homeowners.

A full debate of these important issues should occur; therefore, a Waiver is inappropriate at this time. **We urge you to take a position opposing the granting of the requested waiver.**

Please do not hesitate to contact us if you have any questions. Thank you for your consideration.

Sincerely,

Tim Ikeler
